Program

April 15, 2020

7.45 – 8.00 Registration

Lectures / recorded surgeries

8.00 – 8.15 Welcome and course objectives.
8.15 – 8.45 Getting started in endoscopic ear surgery.
8.45 – 9.15 Endoscopic ear anatomy.
9.15 -10.30 Procedures 1:
-Myringoplasty: inlay, underlay and over-under techniques
-Retraction pockets
-Ossiculoplasty

10.30 -11.00 Coffee break

11.30 -12.15 Procedures 2:
-Stapedotomy
-Cholesteatoma
-Other procedures: middle ear tumors, facial nerve decompression, vestibular neurectomy, acoustic neuroma, combined endoscopic-microscopic approaches (cholesteatoma, cochlear implants, tumors)

12.15 -13.00 Round table "Future perspectives in endoscopic ear surgery"

13.00 -14.00 Lunch

Hands-on dissection (LABORATORY)

14.00 -14.30 Live demo
14.30 -15.15 Basic techniques I:
-Handling and positioning the endoscope
-Myringotomy and ventilation tube insertion
-Graft harvesting
-Inlay grafts

15.15 -16.30 Basic techniques II:
-Tympanomeatal flap elevation, atticotomy
-Underlay grafts
-Extended tympanomeatal flap
-Over-under grafts
-Stapes surgery
-Ossicular reconstruction (TORP, PORP)

16.30-17.00 Coffee break

17.00-17.30 Live demo
17.30-19.00 Advanced techniques:
-facial decompression, combined retroauricular-transcanal approach, cochlear implants, vestibular neurectomy, access to IAC, two-handed surgery
